LAUNCHER LCH-AC950 PLUS A/C SERVICE MACHINE is an enhanced model of LAUNCHER's best selling AC machine. The same DUAL revolutionary unit recovering, recycling, and recharging both R134a and 1234YF gases is redesigned with a double flushing system for zero gas cross contamination and with cost-saving accessories.

(R134a and 1234YF gas)

SPECIAL FEATURES:

- **Heavy Duty Construction**
- **Designed to withstand the most challenging shop environments.**
- **Durable welded steel frame**
- **Removable Tank for Transport, eliminates the need for scale locks**
- Double flushing system for zero gas switching contamination
- 2 tank supply connectors included (R134a and 1234YF gas)
- Latest OE database- lifetime updates
- Additional filter included
- Dust cover included
- Dual system for R134a and 1234YF
- Services standard and hybrid vehicles
- Maintenance-free, self-diagnosis
- Comes with 3m(10ft) long hoses
- Integrated printer to produce test results.
- Automatic & manual used oil drain/oil injection
- Extensive oil and refrigerant database
- Dust cover included
- Fully automatic functions
- Gas qty usage smart monitoring

INCLUDED ACCESSORIES:

Dust cover

Additional filter

2 tank supply connectors (R134a and 1234YF gas)

Load cell precision: +/- 10g
Load cell precision (oil bottle): +/- 5g
Vacuum pump capacity: 4.5CFM, 3Pa
Service hose length: 2 sets/ 3m (5 ft) each
Supply tank capacity: 12L each/ 2 separate tanks
Display: 5" control screen
System: Pressure purge system
Pulse flush: Clean flush to avoid contamination
Type of refrigerant: R134a and 1234YF
Voltage: 110-240V/50-60Hz
Unit dimension: (WxDxH,mm) 670x730x1445
Weight: 100kg
